Summary

Senior Frontend Engineer with 5+ years of experience building and maintaining scalable web applications across FinTech, EdTech, and Real Estate industries. Currently leading frontend development for a FinTech platform serving 2.5M+ users, delivering high-impact features and driving major frontend refactors with smooth, disruption-free releases. Previously optimized performance by up to 30% through code splitting, caching, and UI rendering improvements. Highly skilled in React, TypeScript, and Next.js, with strong expertise in responsive UI development, design system implementation, and cross-functional collaboration. Passionate about translating wireframes into accessible, performant UIs that enhance user experience.

Skills

Frontend: React, Next.js, Redux, TypeScript, JavaScript (ES6+), Vue, Tailwind CSS, SCSS, Emotion, GraphQL, Apollo Client, React Query, MUI, ESLint, Storybook, Figma, Vite, Webpack.

Backend & Tools: Node.js, Express.js, REST APIs, Prisma, SQL (PostgreSQL, MySQL), AWS (S3, Cognito, Amplify), Firebase, Docker, CI/CD (GitHub Actions, Azure Pipelines), Git, Postman.

Concepts: Component-Based Architecture, Performance Optimization, API Integration, Accessibility, Monorepo Architecture, Responsive Design, TDD, Agile/Scrum, SOLID, OOP.

Testing & Monitoring: Jest, React Testing Library, Cypress, Sentry, Datadog, GTM, Amplitude.

Experience

Oct 2024 - Present
Twisto, Czech Republic - *React Engineer*

- Delivered major UI features for a financial web app serving 2.5M+ users across multiple EU countries, using React, TypeScript, and Next.js.
- Translated wireframes and UI specs into fully responsive, production-quality components using Emotion, shipping 10+ reusable components for the design system.
- Designed and implemented a Strapi-based CMS to manage static pages and blog content, reducing content deployment time by 60%.
- Led a successful front-end migration between card-issuing providers with zero downtime, affecting all active users.
- Conducted code reviews and contributed to internal UI best practices, improving code quality and team velocity.

Feb 2023 - Jul 2024

Laba Group, Ukraine - *React Developer*

- Built and maintained a multi-language Learning Management System (LMS) serving 200K+ users across multiple European countries.
- Implemented and maintained a custom design system and Storybook component library with 40+ reusable components for UI consistency.
- Created responsive layouts and themes using Tailwind CSS and CSS Modules, supporting 5+ languages and multiple country-specific configurations.
- Optimized React Admin dashboards, improving loading performance by 40% and reducing bundle size by 25%.
- Collaborated directly with designers and backend teams using GraphQL + Apollo Client, integrating API endpoints for seamless data flow.

Apr 2020 - Feb 2023

Five Systems Development, Ukraine - *Frontend Developer*

- Developed and maintained applications across B2B, Real Estate, and E-commerce sectors, contributing to 5+ production applications.
- Promoted from Junior Developer to Frontend Developer within 18 months, leading squads of 2-3 frontend engineers on key initiatives.
- Implemented real-time features using Firebase, Redux Saga, and WebSocket APIs, enabling live collaboration for 5K+ concurrent users.
- Led the frontend architecture of a U.S. B2B platform serving enterprise clients, defining routing, authentication flows, and scalable UI patterns.

Education

Sep 2019 - Jun 2023

Vinnytsia National Technical University, Ukraine - *Bachelor's in Software Engineering*

Focused on low-level programming, system design, and algorithms. Hands-on experience with C, C++, Rust, Java, PHP, and Flutter.

Professional Development

Courses & Books: CS50, Advanced React, Grokking Algorithms, Clean Agile.

Technical Growth: Active on LeetCode and Codewars, You Don't Know JS series.

Skills: Maintain 100+ WPM typing speed, enabling rapid prototyping and efficient code implementation.
